

## Latest z/OS courseware releases now available!

### z/OS e-Learning Curriculum upgraded to z/OS V1.10

Atlanta, USA (October 1, 2008) - Interskill Learning proudly announced the release today of the new z/OS v1.10 e-learning courses and the expansion of the series to 28 hours.

“The release of Interskill Learning’s z/OS v1.10 e-learning courses further enhances Interskill’s Datatrain courseware as the only up-to-date e-learning resource available to the mainframe computing industry” said Interskill Learning’s American Vice President, Darren Surch.

“As used by over 1,200 corporations and government bodies worldwide, Interskill’s mainframe e-learning has become a mainframe education standard,” he continued.

Associated releases of z/OS v1.9 updates include JCL (15 hours), ISPF (17 hours) and JES2 (24 hours).
